

# IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Patent No. 7,582,264	Issue Date 09/01/2009	First Named Inventor Johan-Valentin Kahl	Docket No. GRUNP67	Confirmation No. 6501
Invention Device for Microfluid Analysis			Examiner Fitzgerald, John P.	Art Unit 2856

## STATEMENT under 37 CFR 1.324(b)

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

This is a statement accompanying a request to correct inventorship in the above-captioned U.S. patent ("the Patent") by adding my name as an inventor. I am a joint inventor of the invention claimed in the Patent, and through error I was not named on the issued Patent. This inventorship error occurred without any deceptive intent on my part. I understand that Uwe Trebbe, Friedhelm Siepmann, Andreas Thünchen, and Stefan Stumpe will also be added as inventors, and I agree to those additions as well.

Respectfully submitted,

April 27, 2011
